Watch

Watch The Listies Put on a Show video [here](#). Notice how The Listies transform a lounge room to make a performance space.

Make

Have a play around with a space at home to make a 'Home Stage'. Remember, it doesn't have to be a real stage - it's pretend!

- Tidy up a space in your lounge room or bedroom to create an open area
- Set out a space for your pretend audience. A few cushions on the ground will be enough!
- Think about a backdrop. Could you drape a blanket across a door or hang a sheet from a clothes horse?

Perform

Go back to the video and watch 'Dramatic Doors'. It starts at 3:12. Try copying Matt's different types of doors, such as:

- The sliding door
- The door on a boat
- The revolving door
- The door on a space ship

Some of these doors might need sound effects. Use your voice to bring your doors to life!

Create

Can you think of some different types of doors of your own? They can be as creative as you like! Create three different doors of your own, act them out and then draw a picture of them below!
